# THE RENAISSANCE PATIO STORY

---

After years of work installing every patio product on the market, we had one constant thought; these patios are just not good looking, they are hard to install, and not very strong, certainly, we can do better. That was the moment Renaissance Patio Products was born.

We discovered that by using higher quality materials with less labor spent in handling, we could offer patio covers that exceeded expectations, while keeping prices at a level nearly anyone can afford.

We set about designing each one of our product lines until there was nothing else that could be done to improve them, our goal; design and manufacture patios that we would be proud to install on any home.

We hope you see the care that went into each design, the thought behind each engineered connection, and the careful attention to aesthetic that is our guiding principle.

---

# THE RENAISSANCE PRODUCT LINE

# RENAISSANCE MODERNO PATIO ROOFING

*Clean Lines, Modern Design, and major step up from the plain old patio roof gives your home a high end look and feel without the high end price tag.*

MODERNO PATIO ROOF

1. High strength, insulated aluminum roof panels
2. Sculpted header
3. Sculpted posts
4. Custom post covers
5. Custom gutter system
6. Strong, but simple connections

# RENAISSANCE CONTEMPO PATIO COVER:

*Decorative framed look, aluminum simplicity and a price you will love, means your patio can be both beautiful, and practical. Taking our Moderno Patio Roof, and adding decorative aluminum truss ends provides that extra touch that most patios are missing, and at the same price point as the "Aluminum-Wood" type products.*

1. Decorative truss ends provide a wood framed look and decorative appeal
2. High strength, insulated aluminum roof panels
3. Sculpted header
4. Sculpted posts
5. Custom post covers
6. Custom gutter system
7. Strong, but simple connections

# RENAISSANCE CLASSICO PATIO ROOFING:

*The Classico is an uncompromising take on the traditional wood framed patio roof, with a full truss framing system that not only strengthens the structure, but gives it a flawlessly high-end look.*

1. Decorative trusses protrude from the header, and return to your home to create a high end, fully framed appearance
2. High strength, insulated aluminum roof panels
3. Sculpted header
4. Sculpted posts
5. Custom post covers
6. Custom gutter system
7. Strong, but simple connections

# RENAISSANCE FRESCO PATIO COVERS:

Keeping your patio light, bright, airy, AND dry is now possible, thanks to the Fresco Patio Cover. Incorporating a decorative translucent pearl, polycarbonate roofing system means your patio can have 70% of the sun's light pass right through, while keeping out the rain and reducing heat transfer into the space by up to 30%.

# RENAISSANCE ARIA SHADE TRELLIS:

*The Aria shade trellis was designed from the ground up to serve two purposes, first, to be a stunning work of art in your backyard, and second, to provide shade so you can enjoy the outdoors all summer long. The Aria shade trellis, although it looks similar to a wooden shade trellis, incorporates high strength, low maintenance extruded aluminum so you can spend your weekends enjoying yourself, instead of repainting.*

ARIA SHADE TRELLIS

1. Pergola trusses provide a beautiful, natural look
2. Shade tubes allow for up to 60% shade, to keep you and your guests cool
3. Sculpted header
4. Sculpted posts
5. Custom post covers
6. Strong, but simple connections

# RENAISSANCE DOLCE SEAMLESS SCREEN WALLS:

*Designed from the ground up to be the most attractive screen wall system on the planet, the Dolce hides all of the screws and fasteners that make a standard screen wall look like an erector set.*

1. Concealed fasteners at all connections keep your screen walls clean and spotless looking
2. Heavy gauge aluminum extrusion is 50% thicker than standard screen framing, which gives your patio a much stronger feel
3. Configure your screen walls to be fully open, or add a chair rail to give them a more traditional feel
4. High Strength, designer screen doors can handle abuse and last for a lifetime

# RENAISSANCE LUMINO SUNROOMS:

*Love the outdoors, but don't always love the weather? Enclose your space with Claro Sunroom Walls. We designed our Claro Sunroom beams to allow any type of window or door to be installed in any one of our product lines, so, if you just want to keep the rain out, try Acrylic Sliding windows, or, if you want a indoors out room in the winter, fully insulated glass, the sky is the limit with the Claro Sunroom system.*

1. Completely custom framing design allows windows and doors to be installed into any Renaissance Patio Product
2. Heavy gauge aluminum extrusion allows windows and doors to fit seamlessly into your framing, creating a smooth and clean look
3. Configure your space to include horizontal sliding, single hung, or fixed glass windows
4. Custom door installation sections keep your rooms framing nice and clean
