WHAT IF YOUR PATIO COULD BE USED MORE OFTEN?

* Only have a small space and want an inexpensive extension of outdoor living?
* Love the outdoors – hate the bugs and weather?
* Don't like covering the porch furniture or storing it for the winter?

INTRODUCING EZE-BREEZE®

A Revolution in Indoor-Outdoor Living

* Transform porches, patios and other outdoor spaces into comfortable, spacious rooms
* A vinyl-glazed product that is remarkably strong, shatterproof and flexible
* Offers the benefit of glass without the cost or weight
* Provides protection from unpleasant weather, bugs, dust and dirt
* Beautifies and complements the architecture or style of any home
* Creates comfortable, spacious rooms out of open spaces

VERTICAL FOUR-TRACK

* Lightweight and easy to operate panels
* Vertical Four-Track panels offer 75% ventilation
* Floor to ceiling application
* Easy to install without expensive reframing

THE BENEFITS OF GLASS WITHOUT THE COST OR WEIGHT.

The tough 10-mil vinyl glazing gives the benefit of glass without the cost or the weight. It's as transparent as glass, but not nearly as heavy. Or expensive. If accidentally pushed or distorted, the tough, 10-mil vinyl will return to its original shape within minutes. A product with a memory.

To help you protect your investment, each Eze-Breeze® sliding panel unit is custom-made to exacting standards, comes with an iron-clad lifetime warranty on frames and 10-year warranty on vinyl, screen and moving parts. Like the screen enclosure itself, vinyl and screen panels are not hurricane proof. Homeowners should remove the panels if winds exceed 65 mph.

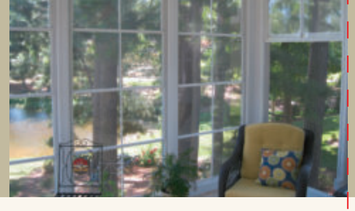
PORCH & PATIO ENCLOSURES

PGT® EZE-BREEZE® PORCH AND PATIO ENCLOSURE PRODUCTS LET COOL BREEZES IN AND KEEP BAD WEATHER OUT, MAKING OUTDOOR SPACES MORE INVITING.

Give your home an extra room that can become a private retreat, a spa or rec room, a greenhouse, an exercise room, and more! With two styles to choose from, our custom made-to-order Vertical Four-Tracks and Horizontal Side Sliders allow you to have fun designing an outdoor space that's just right for you.



YOU'VE CREATED A ROOM, NOW ADD A DOOR…

A PGT® Eze-Breeze® Cabana Door with a sleek modern design not only looks good, but it's versatile too! It's the ultimate complement to all our porch enclosure products and your new lifestyle!

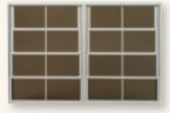
VERTICAL FOUR-TRACK – SERIES 4V60

Vertical Four-Track panels offer 75 percent ventilation. Raise or lower three of the lightweight, vinyl glazed panels over the fourth to create an outdoor feel. Or remove and store the panels, leaving the screens in place, for 100 percent airflow.

- 4 vents offer 75 percent ventilation
  - Option for 2 and 3 vents
- Vents are rolled with tough 10-mil vinyl for keeping wind, dirt and weather out
- Tilt in, removable vents make cleaning a breeze
- Vertical spreader bars for added durability
- Color matched hardware
- Sizes accommodate virtually any size opening
- Outside mount frame – ideal for enclosing an existing porch or patio room, or adding a new one
  - Configurations: Single, Twin or Triple
  - Factory rolled screen in frame
- Inside mount frame – ideal for multi-floor applications such as condominiums or apartments, or residences not easily accessible from the outside
  - Optional Lip Frame screen attached
- Matching Removable Vent Fixed Lite – Series RV20

The unique, Removable Vent Fixed Lite is the perfect companion to our Vertical Four-Tracks. It is designed for openings that are too small for operable units and too large for non-operable units.

- Factory installed lift tabs make it easy to remove the vent while leaving screen in place for even more ventilation
- Frame and vent matches our Vertical Four-Track giving the room a consistent look and design
- No more angles and channels to assemble



We also offer two ways for enclosing large openings without expensive re-framing. Our twin and triple continuous frame Vertical Four-Track are designed for larger openings. Or use our 2" x 2" mull post to join single units.

HORIZONTAL SIDE SLIDER – SS10

Horizontal Side Slider panels offer 50 – 100 percent ventilation. With just one finger, full length panels slide left or right on corrosion resistant, neoprene rollers. When you choose our horizontal design, you'll also choose from a wide variety of panel configurations – each bringing a wide-open, spacious look to your home.

- 2-track or 4-track frame option
- Vent quantities range from 2 – 10 to fill any size opening
- Vent configurations: stacked, staggered, pyramid or condo
- Factory installed latches
- Vents are rolled with tough 10-mil vinyl for keeping wind, dirt and weather out
- Neoprene rollers
- Factory installed color matched hardware
- Outside mount frame – ideal for enclosing an existing porch or patio room, or adding a new one
  - Tank-sill for improved water performance
  - Factory rolled screen in frame
- Inside mount frame – ideal for multi-floor applications such as condominiums or apartments, or residences not easily accessible from the outside
  - Optional Lip Frame screen attached
- Matching Heavy Duty Lip Frame Fixed Lite – HLF20

Designed for openings that are too small for operable units, our Heavy Duty Lip-Frame Fixed Lite is the ideal companion to our Horizontal Side Slider.

- The frame matches our Horizontal Side Slider, giving the room a consistent look and design
- Optional trapezoid shape
  - A solution for filling gable roof ends
  - Features improved adjustable corner keys designed to securely hold its shape

CABANA DOOR – SERIES CD90

Imagine, a Cabana Door without compromises. We've exceeded the industry standard with this heavy-duty aluminum door and complemented it with our Eze-Breeze window styles. Pre-hung on heavy-duty hinges, this door has no exposed installation screws or weather-strip, no unsightly inserts or notches, and comes standard with a factory installed threshold, and a Z-bar or equal leg frame. Choose from two standard styles or customize one to suit your new outdoor space.

VERTICAL FOUR-TRACK STYLE

- Innovative Z-bar frame, which easily converts to an equal leg frame, designed to work in any opening
- Standard 14 1/4" kick plate or customize the kick plate size to meet your needs
- Factory installed 3/8" saddle threshold
- Optional 1 7/8" or 2" bumper threshold
- In-swing or out-swing
- Single or double door
- Factory installed astragal on double doors means faster installation time
- Standard or custom sizes make it easy to fill a wide range of openings
- Vents are rolled with tough 10-mil vinyl for keeping wind and weather out
- Four-Track frame is factory rolled with 1814 charcoal screen mesh

FIXED LITE STYLE

- Innovative Z-bar frame, which easily converts to an equal leg frame, designed to work in any opening
- Standard 4 3/4" kick plate or customize the kick plate size to meet your needs
- Factory installed 3/8" saddle threshold
- Optional 1 7/8" or 2" bumper threshold
- In-swing or out-swing
- Single or double door
- Factory installed astragal on double doors means faster installation time
- Standard or custom sizes make it easy to fill a wide range of openings
- Rolled with 1814 charcoal screen mesh
